

The QuantumMark Advantage

You know the feeling - you have a project, initiative, or implementation you are working on, and things can't seem to go right. You are over budget, people don't agree on a solution, and there is no light in sight...Put simply: we ensure this **DOESN'T** happen. When clients work with QuantumMark, they are confident that all goals, objectives, deadlines, and budget restrictions will be met on time or early, and that any setback will be dealt with before it has the chance to derail the project. With processes and procedures pioneered by us, we save you time, money, and provide the highest quality results that exceed your expectations. The reason? We feel all clients become a part of our QuantumMark family, and when our family wins, we win. Even better? Clients can be extra confident in our work because it is backed by the strict code of ethics that comes with our elite certification as Certified Management Consultants (CMC®) by the Institute of Management Consultants (IMC).

QuantumMark is a certified Women Owned Business by the Women Business Enterprise National Council Corporation (WBENC). With over 30 years of consulting experience in both the public and private sector, we pride ourselves on our high quality of work, our employees, and the integrity that we bring to each and every project. Our guiding philosophy is to build a partnership with our clients, and to create sustainable solutions with real world impacts.
